CURRENT OCCUPATION: Founder / Managing Director of Palmela S.A.

PRIOR EMPLOYMENT: fine Art / finance independent advisor & executive in private museums

How many years have you been a member of ACL? Two

What ideas, goals and visions do you have for ACL?

As a board member my central vision would be to make the American Club of Lisbon the premier business and networking club, fostering a dynamic community that transcends generations, facilitates meaningful connections, and champions innovation and excellence in business community for the next 75 years and beyond.

If you are elected to the Board, what specific contribution would you like to make and what abilities, would you bring to bear in making those contributions?

To meet my vision of the American Club of Lisbon I would support the board in the planning and execution of the diverse range of events and activities. As well, I would work to establish partnerships with organizations and other clubs. This can lead to joint events, discounts for members and increased visibility in the community.

Regarding member development and retention, I would work to foster a sense of belonging by engaging members on a personal level. I would do this by recognizing members milestones, sending personalized communications, and acknowledging members contributions to the club. Finally, I would work to facilitate meaningful connections for all club members by activating my international network of professionals and thus raising awareness of the American Club of Lisbon.
