How many years have you been a member of ACL? 4 I think

What ideas, goals and visions do you have for ACL? _____

ACL is a vibrant community in Lisbon and it should be known! I believe I could help in bringing in more members, young active professionals from different background. It might be a path to reach different networks for the ACL

If you are elected to the Board, what specific contribution would you like to make and what abilities, would you bring to bear in making those contributions?

I would help in the board discussion and try to support the board and members in any way I can.

I could participate in giving some ideas for events.

I could also help in bringing in more members, young active professionals from different background. It might be a path to reach different networks for the ACL

I could facilitate networking events to bring together club members and potential partners, creating opportunities for collaboration and business growth.

I could organize workshops or speaker events focused on emerging trends in technology and business to keep members informed and competitive. I could speak about hospitality if it is of any interest and bring some local speakers as well.

I could encourage the sharing of knowledge and expertise among members to enhance the overall skill set of the business community.

I could develop partnerships with local charitable organizations and work towards implementing socially responsible business practices.
